PROFESSIONAL SUMMARY

Information Technology undergraduate with strong foundations in Java, Python, C, Data Structures & Algorithms, Object-Oriented Programming and web development. Hands-on experience in civic technology, telecom infrastructure, telemedicine and job automation, with software development internship and student leadership experience.

EDUCATION

B.Tech – Information Technology | SRM Easwari Engineering College | 2024–2028 | CGPA: 7.83/10

TECHNICAL SKILLS

Languages: Java, Python, C | **Frontend:** HTML, CSS, React.js, Next.js, TypeScript, Tailwind CSS
Backend & Databases: Node.js, Express.js, Spring Boot, MongoDB, Mongoose, MySQL, PostgreSQL | **Core:** OOP, DSA, Problem Solving
Tools & Technologies: Git, GitHub, VS Code, Figma, Tableau, Google Maps, Gemini / Google GenAI, JWT

EXPERIENCE

Software Development Intern – Chennai Metro Rail Limited (CMRL) | Sep 2026–Present

- Contributed to development and enhancement of the AI chatbot for the CMRL mobile application, supporting AI-powered passenger assistance and information access.
- Supported chatbot development and integration activities within the CMRL application environment.

Green Intern – 1M1B / AICTE / Salesforce Green Internship, Batch 7 | Feb 2026–Present

- Contributed to a City/Town Waste Mapping and Awareness Platform focused on waste-management awareness, sustainability and community engagement.
- Supported documentation, task tracking, progress reporting and awareness activities as part of a virtual cross-functional team.

PROJECTS

CivicAI – Tamil Nadu Civic Issue Reporting Platform | Next.js, TypeScript, Tailwind CSS, Gemini, Google Maps

- Built a civic issue reporting platform covering waste, road damage, streetlights, water leakage, fallen trees and traffic issues; integrated AI image verification, Google Maps, multilingual UI, speech-to-text/text-to-speech, accessibility, complaint status and citizen confirmation.

Telecom Tower Asset & Network Operations Management System | React, TypeScript, Node.js, Express.js, MongoDB, Mongoose, JWT

- Developed centralized management for telecom towers, assets, power systems, batteries, inspections, maintenance, outages and technician assignments; implemented role-based access, dashboards, alerts and operational tracking.

Telemedicine Application

- Developed a telemedicine solution focused on improving digital healthcare access, particularly for rural users, with accessible patient–care interaction.

Job Automation System | Python, Automation, Gmail API / OAuth

- Developed an automation workflow for job discovery, application support and recruiter outreach; automated recruiter-email extraction and application emails with resume attachments, supporting application tracking.

E-Commerce Simulator | Java, OOP, Collections, File I/O | Unstop Tutedude Hackathon | Jul–Nov 2025

- Engineered a console-based shopping cart application using inheritance, interfaces, exception handling, Java Collections and file-based order history.

LEADERSHIP & ACHIEVEMENTS

Head – Industry Institute Interactions, Information Technology Student Association — coordinated industry–institute interaction, communication and student engagement initiatives. **Associate Operations Coordinator**, Department Social Responsibility Club — supported logistics, communication and volunteer engagement. **Team Leader – SIH Internal Hackathon 2024** — led a 5-member team developing a telemedicine solution for rural healthcare access in Nabha; managed ideation, task allocation and prototype delivery; Top 50 in the internal selection round. **Tata Imagination Challenge 2026:** Shortlisted for Round 1. **Google Student Ambassador Program 2026:** Shortlisted for final stage.

CERTIFICATIONS

Cisco Networking Academy: Apply AI: Analyze Customer Reviews; MongoDB University: AI Agents with MongoDB, RAG with MongoDB, Vector Search Fundamentals, AI Data Strategy with MongoDB, MongoDB Basics for Students; Learning Programming with Java – An Interactive Way.
